Q 1. **It is noted on the bottom of the listing of locations that some locations can't take trailer trucks. Can you give us a bit more information on this? Do they need a small box truck, or can they take a single axel truck?**

A. Yes, most of our locations can be serviced with a trailer truck. There are two Conservation Camps on the list, and they may need a small box truck as these are dirt roads that lead to the camps with minimal truck turn around area.

Q2. **Can locations be serviced by different distribution sites? Will this be an issue if this is the case?**

A. Yes, Provide additional information within your technical response.

Q3. **On the market basket (price schedule) – Can we skip lines for "No Bid:"?**

A. The Price Schedule is in Excel. If you are not bidding on a product, please put No Bid or NB in the price location.
