The State of Vermont reserves the right to obtain clarification or additional information necessary to properly evaluate a proposal. Such favorable consideration shall be consistent with and not supersede any preference given to resident bidders of the State and/or products raised or manufactured in the State, as explained in the Method of Award section. But, such favorable consideration shall not be employed if prohibited by law or other relevant authority or agreement.

3.4. **METHOD OF AWARD:** Awards will be made under the provisions of 29 V.S.A. § 903. The State may award one or more contracts and reserves the right to make additional awards to other compliant bidders at any time if such award is deemed to be in the best interest of the State. All other considerations being equal, preference will be given first to resident bidders of the state and/or to products raised or manufactured in the state, and then to bidders who have practices that promote clean energy and address climate change, as identified in the applicable Certificate of Compliance.

3.4.1. Evaluation Criteria: Consideration shall be given to the Bidder's qualifications and experience, ability to provide the products/services within the defined timeline, cost.

3.5. **CONTRACT NEGOTIATION:** Upon completion of the evaluation process, the State may select one or more Vendors with which to negotiate a contract, based on the evaluation findings and other criteria deemed relevant for ensuring that the decision made is in the best interest of the State. In the event State is not successful in negotiating a contract with a selected Vendor, the State reserves the option of negotiating with another Vendor, or to end the proposal process entirely.

3.6. **COST OF PREPARATION:** Bidder shall be solely responsible for all expenses incurred in the preparation of a response to this RFQ and shall be responsible for all expenses associated with any presentations or demonstrations associated with this request and/or any proposals made.

3.7. **CONTRACT TERMS:** The selected bidder(s) will be expected to sign a contract with the State, including the Standard Contract Form and Attachment C as attached to this RFQ for reference.

3.7.1. **Business Registration.** To be awarded a contract by the State of Vermont a vendor (except an individual doing business in his/her own name) must be registered with the Vermont Secretary of State's office <http://www.sec.state.vt.us/tutor/dobiz/forms/fcregist.htm> and must obtain a Contractor's Business Account Number issued by the Vermont Department of Taxes <http://tax.vermont.gov/>.

Payment terms are Net 30 days from receipt of an error-free invoice with all applicable supporting documentation. Percentage discounts may be offered for

prompt payments of invoices; however, such discounts must be in effect for a period of 30 days or more in order to be considered in making awards.

Factory seconds or remanufactured products will not be accepted unless specifically requested by the purchasing agency. All products provided by the contractor must meet all federal, state, and local standards for quality and safety requirements. Products not meeting these standards will be deemed unacceptable and returned to the contractor for credit at no charge to the State.

- a. Percent (%) of recycled content and post-consumer content; and

3.10. **SAMPLES:**

3.10.1. **Bidder Supplied Samples:** The Commissioner reserves the right to request from the Bidder/Contractor a representative sample(s) of the Product offered at any time prior to or after award of a contract. Unless otherwise instructed, samples shall be furnished within the time specified in the request. Untimely submission of a sample may constitute grounds for rejection of Bid or cancellation of the Contract. Samples must be submitted free of charge and be accompanied by the Bidder's name and address, any descriptive literature relating to the Product and a statement indicating how and where the sample is to be returned. Where applicable, samples must be properly labeled with the appropriate Bid or Contract reference.

A sample may be held by the Commissioner during the entire term of the Contract and for a reasonable period thereafter for comparison with deliveries. At the conclusion of the holding period the sample, where feasible, will be returned as instructed by the Bidder, at the Bidder's expense and risk. Where the Bidder has failed to fully instruct the Commissioner as to the return of the sample (i.e., mode and place of return, etc.) or refuses to bear the cost of its return, the sample shall become the sole property of the receiving entity at the conclusion of the holding period.

3.10.2. **Enhanced Samples:** When an approved sample exceeds the minimum specifications, all Product delivered must be of the same enhanced quality and identity as the sample. Thereafter, in the event of a Contractor's default, the Commissioner may procure a Product substantially equal to the enhanced sample from other sources, charging the Contractor for any additional costs incurred.

3.10.3. **Conformance with Sample(s):** Submission of a sample (whether or not such sample is tested by, or for, the Commissioner) and approval thereof shall not relieve the Contractor from full compliance with the requirements specified in this RFQ. If in the judgment of the Commissioner the sample or product submitted is not in accordance with the specifications or testing requirements prescribed in the Bid Specifications, the Commissioner may reject the Bid. If an award has been made, the Commissioner may cancel the Contract at the expense of the Contractor.

3.10.4. **Testing:** All samples are subject to tests in the manner and place designated by the Commissioner, either prior to or after Contract award. Unless otherwise stated elsewhere in this RFQ, Bidder samples consumed or rendered useless by testing will not be returned to the Bidder. Testing costs for samples that fails to meet Contract requirements may be at the expense of the Contractor.

3.11. **WARRANTY:** The manufacturer shall include with its proposal a written warranty for each product that it intends to furnish. Warrantees must be based on commercial use, and shall extend for a minimum term of one (1) year from the date a Product is available for use by the purchaser; however, longer term warranties are desirable and will be given favorable consideration, all else being equal.

4. **ENVIRONMENTAL REQUIREMENTS:**

Environmentally Preferable Purchasing (EPP) means the purchase of products and services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw material acquisition, production, manufacturing, packaging, distribution, re-use, operation, maintenance, or disposal of the product or service).

The State of Vermont has established specific goals and objectives aimed at providing sound environmental stewardship, protecting human health, reducing state operating expenses associated with the use and control of regulated hazardous materials, and reducing potential liability attributable to environmental impact. Therefore, where applicable, the following environmental criteria shall be considered for all State purchasing and contracts.

- 4.1. **Paper:** The State desires to reduce the use of chlorine in the products it purchases to protect the environment from pollution. Processed Chlorine Free (PCF) paper means paper in which the recycled content is processed unbleached or is bleached without the use of chlorine or chlorine derivatives AND any virgin material contained therein is totally chlorine free (TCF).
 - 4.1.1. **Copier Paper:** The State requires PCF copier paper which contains a minimum of 50% post-consumer recycled material (any virgin material must be TCF).
 - 4.1.2. **Printing and Writing Paper:** The State requires at least 30% post-consumer recycled content for non-coated paper and at least 10% post-consumer recycled content for coated paper. Preference will be given to chlorine free options when suitable choices are available.
- 4.2. **Recycled Content:** The Commissioner of Buildings and General Services may, at his/her discretion, spend up to 10% more for comparable products that are made of recycled materials. If products made of recycled materials are to cost more than 10% more than comparable products, the Commissioner shall receive consent of State entities that are to use the product before completing the order in question.
- 4.3. **Sustainable Products:** Bidders are encouraged to provide alternative price quotations on wood or paper products that are derived from sustainably managed forestlands. Sustainably managed forest lands shall be defined as those lands enrolled and/or licensed under one of the following third-party certification programs: Sustainable Forestry Initiative Program, the American Tree Farm System, the Canadian Standards Association's Sustainable Forest Management System Standards, the Finnish Standard, Forest Stewardship Council, Pan-European Forest Certification, Swedish Standard, the United Kingdom Woodland Assurance Scheme or other such credible programs as may be developed and implemented. Vendors must provide satisfactory documentation of certification with their bid.
- 4.4. **Life-Cycle Cost Evaluation:** Life cycle cost analysis shall extend beyond the cost of purchasing, to include installation, operation, maintenance, durability, and disposal of a particular product.
- 4.5. **Energy Efficiency (Energy Star):** Bidders shall provide products that earn the ENERGY STAR and meet the ENERGY STAR specifications for energy efficiency when applicable. The vendor is encouraged to visit energystar.gov for complete product specifications and updated lists of qualifying products.
- 4.6. **Alternative Fuels:** Evaluations for vehicles and other fuel-consuming equipment shall consider not only fuel efficiency, but also the source and type of fuel, to reduce emissions of greenhouse gases and pollutants.
- 4.7. **Vehicles:** The State will purchase vehicles that have the highest available fuel efficiency in each respective vehicle class (e.g., passenger cars, light duty trucks, etc.) pursuant to performance specifications recommended by the state Technical Advisory Group established under Executive Order 12-17 section I (D). These performance standards should include consideration of vehicles that not only meet high fuel economy standards but that also provide lower total emissions of greenhouse gases, criteria pollutants, and hazardous air contaminants.
5. **CONTENT AND FORMAT OF RESPONSES:** The content and format requirements listed below are the minimum requirements for State evaluation. These requirements are not intended to limit the content of a Bidder's proposal. Bidders may include additional information or offer alternative solutions for the State's consideration. However, the State discourages overly lengthy and costly proposals, and Bidders are advised to include only such information in their response as may be relevant to the requirements of this RFQ.
 - 5.1. The bid should include a Cover Letter and Technical Response and Price Schedule.

5.2. COVER LETTER:

- 5.2.1. Confidentiality. To the extent your bid contains information you consider to be proprietary and confidential, you must comply with the following requirements concerning the contents of your cover letter and the submission of a redacted copy of your bid (or affected portions thereof).
- 5.2.2. All responses to this RFQ will become part of the contract file and will become a matter of public record under the State's Public Records Act, 1 V.S.A. § 315 et seq. (the "Public Records Act"). If your response must include material that you consider to be proprietary and confidential under the Public Records Act, your cover letter must clearly identify each page or section of your response that you consider proprietary and confidential. Your cover letter must also include a written explanation **for each marked section** explaining why such material should be considered exempt from public disclosure in the event of a public records request, pursuant to 1 V.S.A. § 317(c), including the prospective harm to the competitive position of the bidder if the identified material were to be released. Additionally, you must include a redacted copy of your response for portions that are considered proprietary and confidential. Redactions must be limited so that the reviewer may understand the nature of the information being withheld. It is typically inappropriate to redact entire pages, or to redact the titles/captions of tables and figures. Under no circumstances may your entire response be marked confidential, and the State reserves the right to disqualify responses so marked.
- 5.2.3. Exceptions to Contract Terms and Conditions. If a Bidder wishes to propose an exception to any terms and conditions set forth in the Standard Contract Form and its attachments, such exceptions must be included in the cover letter to the RFQ response. Failure to note exceptions when responding to the RFQ will be deemed to be acceptance of the State contract terms and conditions. If exceptions are not noted in the response to this RFQ but raised during contract negotiations, the State reserves the right to cancel the negotiation if deemed to be in the best interests of the State. Note that exceptions to contract terms may cause rejection of the proposal.
